

Learn about today's important life issues!

Available now on DVDs and CDs from the deVeber Institute

Reproductive Decisions and Women's Well Being: Current Research and Practical Solutions DVD

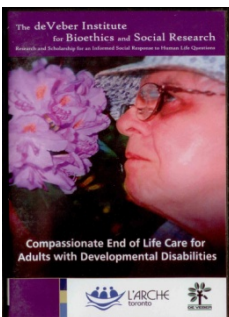

Features Dr. Deborah Zeni discussing current research from Women's Health After Abortion: The Medical and Psychological Evidence. Also, how to respond compassionately to pregnant women and women who have had abortions. Includes writer Andrea Mrozek discussing that abortion is an injustice for women and Teresa Hartnett, who is Director of Project Rachel and Birthright in Hamilton with practical support for women who have had abortions or are facing unplanned/unwanted pregnancies.

A Medical Detective Story: What You Felt When You Were Born DVD

A neurologist reveals surprising facts about prenatal development that have only recently come to light. Dr. Paul Renalli, MD, FRCPC, explains the science and politics of fetal pain during this deVeber Institute annual public lecture.

Compassionate End of Life Care for Adults with Developmental Disabilities DVD

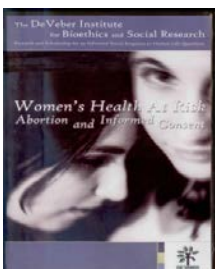

Learn about end of life care from:

- Susan Morgan, MDiv., Community Chaplain for Saint Elizabeth Health Care, York Region, Ontario.
- Paul Zeni, MD, Family physician and palliative care consultant for North Halton, Ontario.
- Jane Powell, graduate of a certificate program in grief and bereavement and co-facilitator of a grief group for L'Arche Toronto with persons with

developmental disabilities.

Women's Health at Risk: Abortion and Informed Consent DVD

Dr. Deborah Zeni, MD, CCFP, explains the medical and psychological risks of abortion to women, how this affects the women in your community, and what this means for health care professionals.

No image available.

CD comes in a plain white slip.

Push for Palliative Care, Prevent Euthanasia CD

Dr. Barrie deVeber, discusses the need for proper palliative care and what that entails. Palliative care nurse and consultant Jean Echlin explains practical protocols for nurses and support staff. EPC's Alex Schadenberg discusses current changes in law and health care and their potential effects on Canada.
